Testimonial

I am more than happy to recommend Surge Marketing Solutions, who have been looking after our social media, SEO and PPC advertising.

Despite Surge initially saying it would take 4-5 months to see an impact, we saw an almost immediate impact on our social media engagement and following an uplift in our website visits that could be attributed to their work.

They have been professional and very helpful every step of the way, and as a team we have learnt a lot from them. They submit monthly reports regarding progress and outcomes and I fully intend to continue working with them. I regard them as an extended part of our marketing team.

Jane Oswald

Head of Marketing, Lightwater Valley.
